Board Approved Date: 07.04.2022

### **Name of service being provided:**

The Dyslexia Association of Ireland (DAI) is a national charity working in the field of dyslexia.

### **Nature of service and principles to safeguard children from harm**

The Dyslexia Association of Ireland (DAI) works with and for people affected by dyslexia, by providing information, offering appropriate support services, engaging in advocacy and raising awareness of dyslexia. Services offered by DAI include: information; assessment; specialist tuition workshops for children and adults; courses for parents; training for teachers and other education personnel; dyslexia awareness training; and lobbying and advocacy.

DAI staff and volunteers have a variety of levels of contact with children and young people engaging with our various services across the country. This ranges from minimal contact to one to one working in our assessment service. As well as volunteers, DAI employs over 200 staff nationwide.

### **DAI agrees that the protection and welfare of children is of paramount importance, regardless of all other considerations.**

- We will fully comply with our obligations under the Children First Act 2015 and other relevant legislation relating to the protection and welfare of children.
- We will fully co-operate with the relevant statutory authorities in relation to child safeguarding matters.
- We actively promote safe practices to minimise the possibility of harm happening to children and protect workers from the necessity to take unnecessary risks that may leave themselves open to accusations of abuse or neglect.
- We will fully respect confidentiality requirements in dealing with child protection matters.

**DAI believes that the safety and welfare of children is everyone's responsibility. We aim to ensure that through our interactions the best interest of the child is paramount.** DAI is committed to the safeguarding of children through the following processes:

- Comprehensive recruitment and vetting processes for all staff and volunteers.
- Comprehensive training programmes which staff are required to complete.
- Clearly defined and communicated standards of service provision.

- A detailed Child Protection Policy is in place, which includes training requirements, a Code of Conduct and procedures for dealing with child protection concerns or reports.

## Risk Assessment

DAI management has carried out an assessment of any potential for harm to a child while availing of our services.
